Founded

Complex & Close Tolerance Machining

Location: Washington State, US

Property: 18,000 sq. ft.

The Company is a supplier of complex and close tolerance parts for customers in the Aerospace and Medical industries. Other services include mechanical assembly, dock to stock, and VMI.

The Company's core strength is in manufacturing components of:

- **Avionic and Activation System (ISO9001, AS9100 Rev D)**
- **Implantable Medical Device (ISO13485)**

Plenty of Opportunity to Grow

The Company utilizes a Fastems/Doosan Cell in its operations, and currently it is operating at 35% capacity so there is plenty of opportunity to grow.

ISO9001 Certified
ISO13485 Certified

AS9100 Rev D Certified
